

The background features a dynamic, abstract graphic composed of numerous 3D-like triangles in shades of gray and magenta, creating a sense of depth and movement across the top half of the slide.

# DEUTSCHE TELEKOM CAPITAL MARKETS DAY 2015

Bonn, February 26/27, 2015

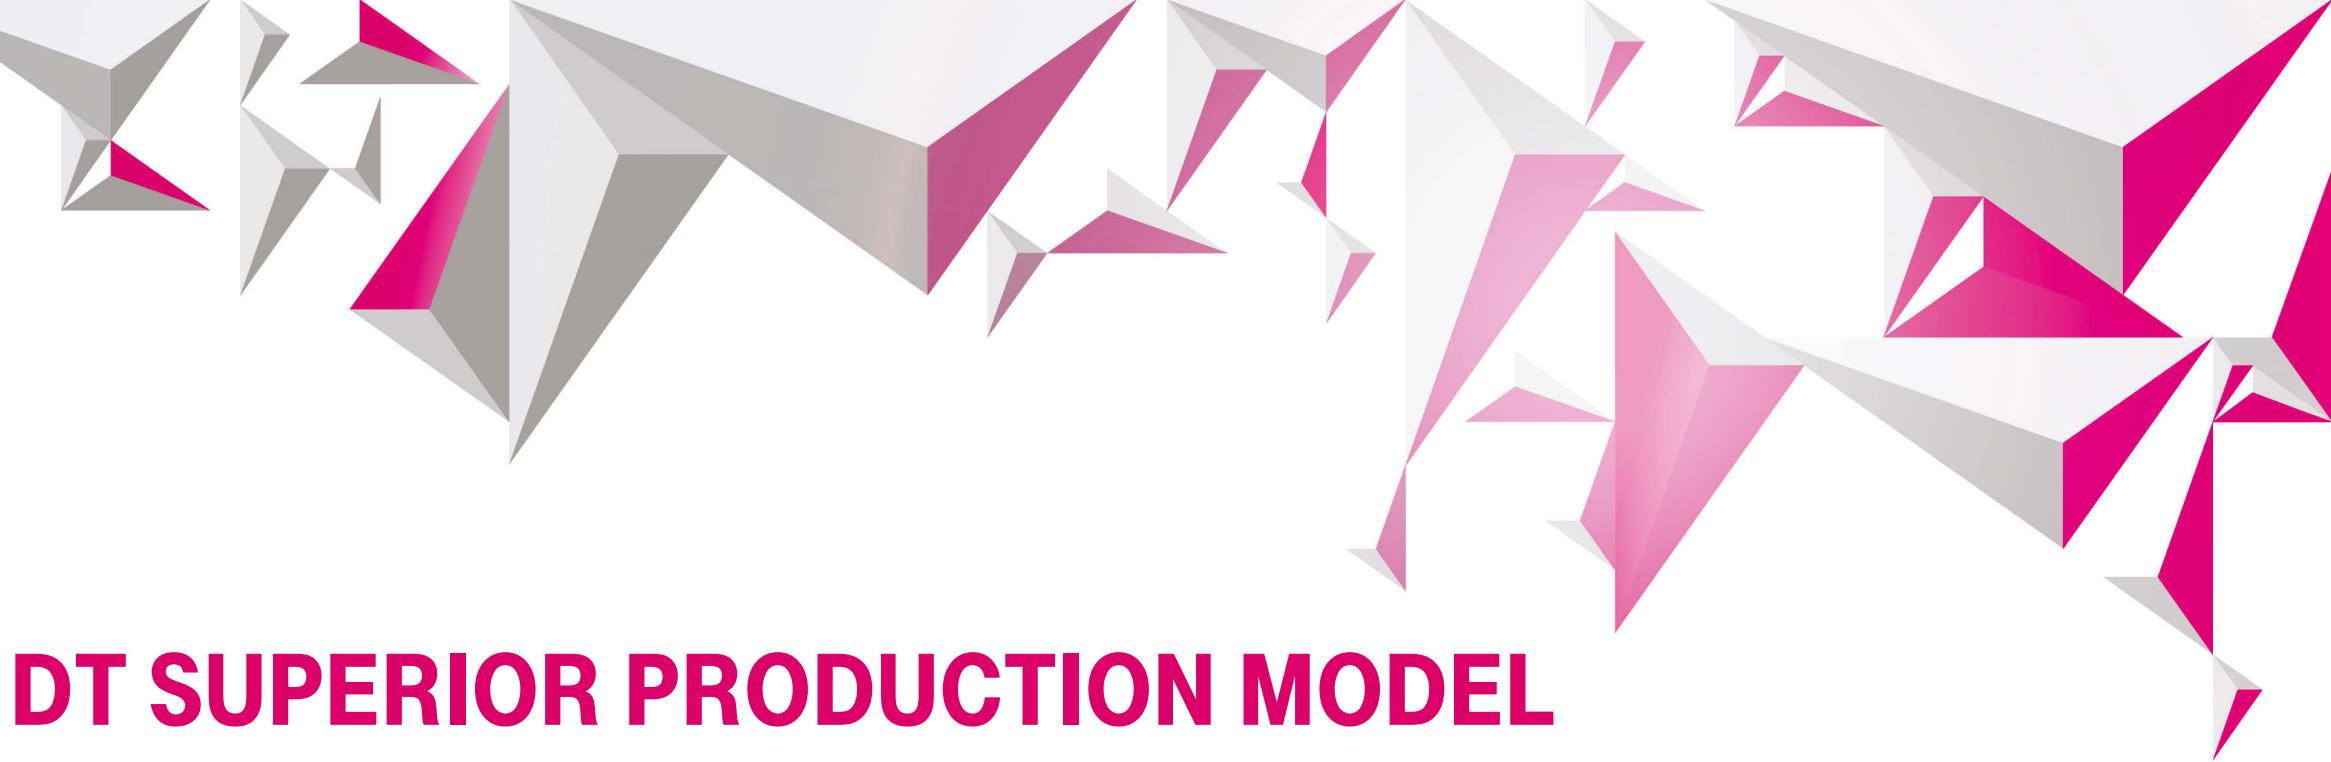

LIFE IS FOR SHARING.

# DISCLAIMER

This presentation contains forward-looking statements that reflect the current views of Deutsche Telekom management with respect to future events. These forward-looking statements include statements with regard to the expected development of revenue, earnings, profits from operations, depreciation and amortization, cash flows and personnel-related measures. You should consider them with caution. Such statements are subject to risks and uncertainties, most of which are difficult to predict and are generally beyond Deutsche Telekom's control. Among the factors that might influence our ability to achieve our objectives are the progress of our workforce reduction initiative and other cost-saving measures, and the impact of other significant strategic, labor or business initiatives, including acquisitions, dispositions and business combinations, and our network upgrade and expansion initiatives. In addition, stronger than expected competition, technological change, legal proceedings and regulatory developments, among other factors, may have a material adverse effect on our costs and revenue development. Further, the economic downturn in our markets, and changes in interest and currency exchange rates, may also have an impact on our business development and the availability of financing on favorable conditions. Changes to our expectations concerning future cash flows may lead to impairment write downs of assets carried at historical cost, which may materially affect our results at the group and operating segment levels. If these or other risks and uncertainties materialize, or if the assumptions underlying any of these statements prove incorrect, our actual performance may materially differ from the performance expressed or implied by forward-looking statements. We can offer no assurance that our estimates or expectations will be achieved. Without prejudice to existing obligations under capital market law, we do not assume any obligation to update forward-looking statements to take new information or future events into account or otherwise.

In addition to figures prepared in accordance with IFRS, Deutsche Telekom also presents non-GAAP financial performance measures, including, among others, EBITDA, EBITDA margin, adjusted EBITDA, adjusted EBITDA margin, adjusted EBIT, adjusted net income, free cash flow, gross debt and net debt. These non-GAAP measures should be considered in addition to, but not as a substitute for, the information prepared in accordance with IFRS. Non-GAAP financial performance measures are not subject to IFRS or any other generally accepted accounting principles. Other companies may define these terms in different ways.

# MWC 2015: CLOUD TV & GAMING

ALL IP PANET INS

**MOBILE**  
WORLD CONGRESS  
BARCELONA 2-5 MAR 2015

- First time B2C products introduced at the same time in three countries
- TV, gaming and applications on all screens

- Cross-country recommendation engine
- Your personalized guide through media world

- Cloud gaming with premium catalog of casual and bestseller games
- Hundreds of games just out of cloud with no console

# MWC 2015: NEXT GENERATION VPN

ALL IP PANET INS

- First B2B product introduced at the same time in three countries
- Next generation DATA Virtual Private Network (VPN) for secure national and international communication

The screenshot shows the welcome page of the DT Cloud VPN Service. At the top, there are icons for three countries: Croatia, Hungary, and Slovakia. Below the header, the text reads: "Welcome to DT Cloud VPN Service! Thanks for selecting Deutsche Telekom for your cloud services. Let's start getting you set up with a new Cloud VPN." A "Go To Dashboard" button is visible. To the right of the screenshot, four key features are listed:

- DELIVERING A VPN SOLUTION FROM THE PAN-EUROPEAN CLOUD**  
developed in less than 6 months
- AUTOMATIC PROVISIONING**  
of system components in a few clicks
- SIMPLICITY AND SELF MANAGEMENT**  
of all aspects of the network  
(speed, security, no of branches, traffic...)
- CARRIER GRADE SECURITY**  
for all your branches and remote users  
by the same strong security mechanisms

## RECAP CMD 2012

## OUR ENHANCED AMBITION 2015–2018

### INS OUR ROLE MODEL

INS rolled out across DT EU and DE

### COVERAGE EXPANSION 2015–2018

**Mobile LTE<sup>1</sup>:** **DE:** from 80% to 95% pop-coverage (with up to 300 Mbps)

**EU:** from 30%–79% to 75%–95% pop-coverage (with up to 300 Mbps)

**Fixed:** **DE:** ≈ 80% of households ≥ 50 Mbps depending on regulatory adjustments (introduction of Supervectoring with more than 250 Mbps in cable footprint)

**EU:** ≈ 50% of households<sup>2</sup> ≥ 100Mbps (≈ 12% of households<sup>2</sup> with up to 500Mbps<sup>3</sup>)

**Hybrid:** **DE:** Download speed of up to 550 Mbps in cable footprint

### TECHNOLOGY EVOLUTION

**Mobile:** Evolution via LTE-Advanced towards 5G

**Fixed:** Vectoring live, Supervectoring + G.fast next

*LTE leadership in DE, GR, HU, HR and SK*

<sup>1</sup> Outdoor coverage    <sup>2</sup> In integrated footprint    <sup>3</sup> FTTH, FTTB, FTTC, cable/ED3 (cable, esp. in Hungary with Euro-DOCSIS)

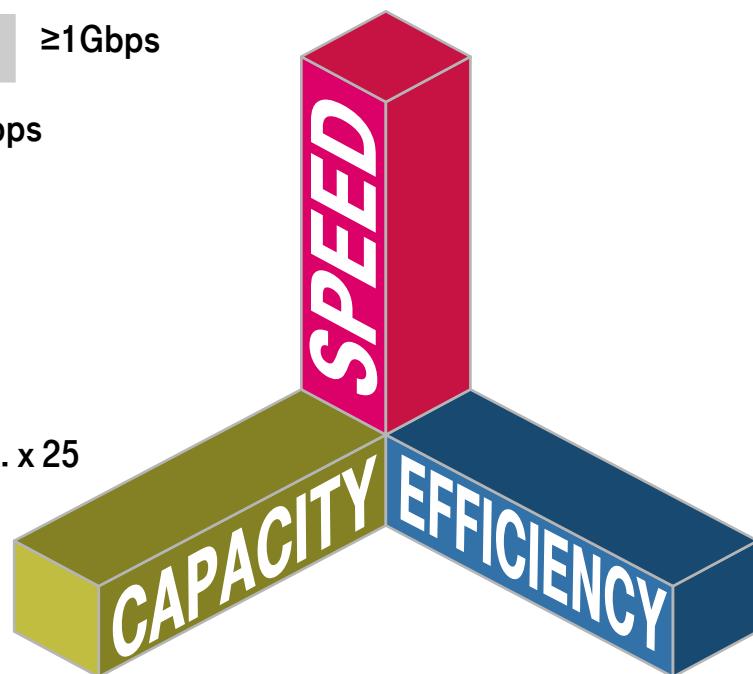

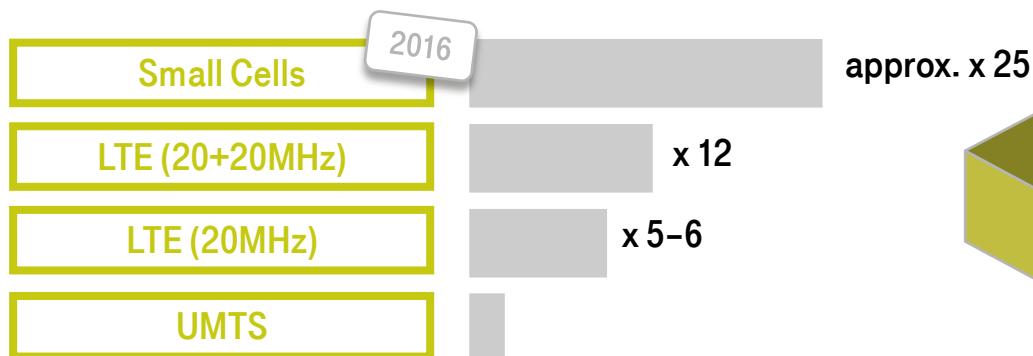

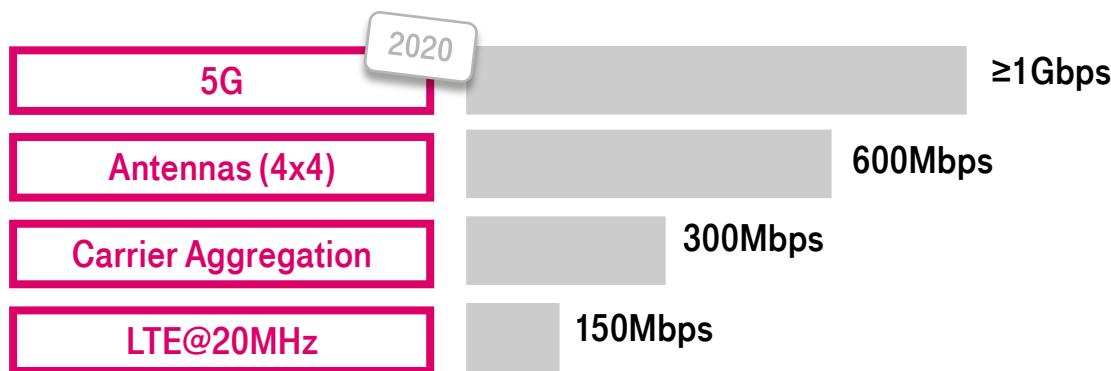

# MOBILE EVOLUTION CONTINUES

FTTC - Super VDSL-Vectoring

FTTC - VDSL-Vectoring

ADSL2+

1000+ Mbps

up to 500 Mbps

≥ 2018

with more than 250 Mbps

up to 100 Mbps

≥ 2017

up to 16 Mbps

<sup>1</sup> "Distribution Point", so far not part of the Telekom access network

# SUPERIOR PRODUCTION MODEL DRIVING CUSTOMER EXPERIENCE

ALL IP PANET INS

Examples

## ULTIMATE APP

- All service and usage relevant information at glance
- Proactively offering data plans following customer usage patterns
- One-click payment for all fixed and mobile services

## BROADBAND ON DEMAND

- Plug & play
- Self service solutions
- Instant provisioning of new features

## CLOUD TV & GAMING CLOUD VPN

- Perceived “Zero” latency
- Products introduction in a few weeks across entire footprint

## HYBRID ROUTER

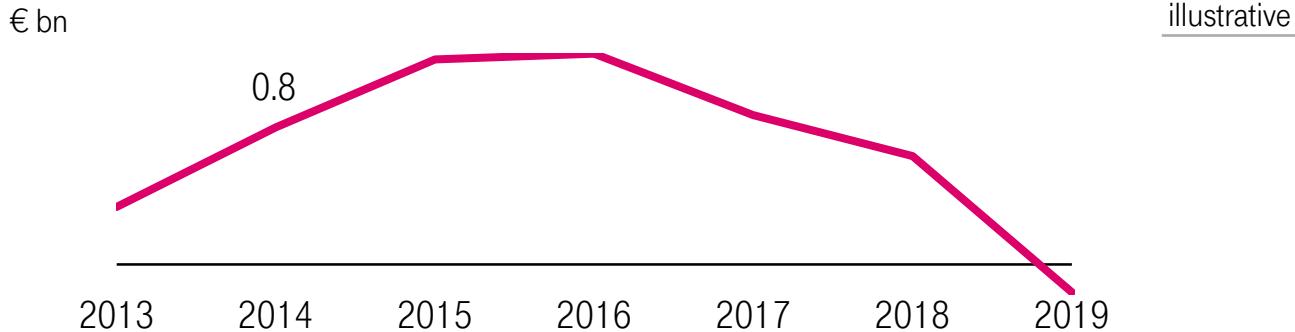

- Boost bandwidth in fixed and mobile networks for even better customer experience

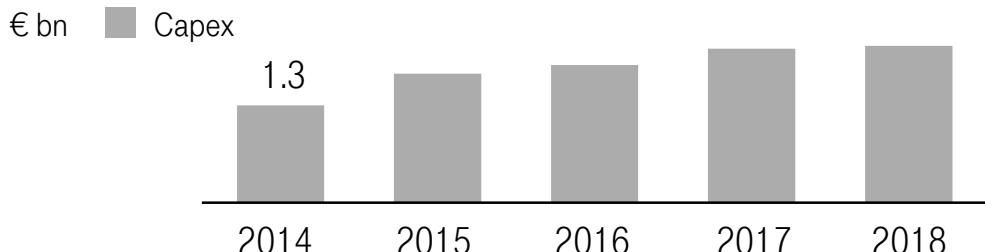

# SIGNIFICANT INVESTMENTS INTO TRANSFORMATION YIELD SUPERIOR DIFFERENTIATION AND COST SAVINGS IN THE FUTURE

## OPEX AND CAPEX: DIGITAL TRANSFORMATION, IP TRANSFORMATION, PAN-EUROPEAN NETWORK<sup>1</sup>

## CAPEX: INS NETWORK

## BENEFITS STEADY STATE FROM EARLY 2020IES

### FIN. BENEFITS: ≈ €1.2 BILLION OPEX SAVINGS<sup>2</sup>

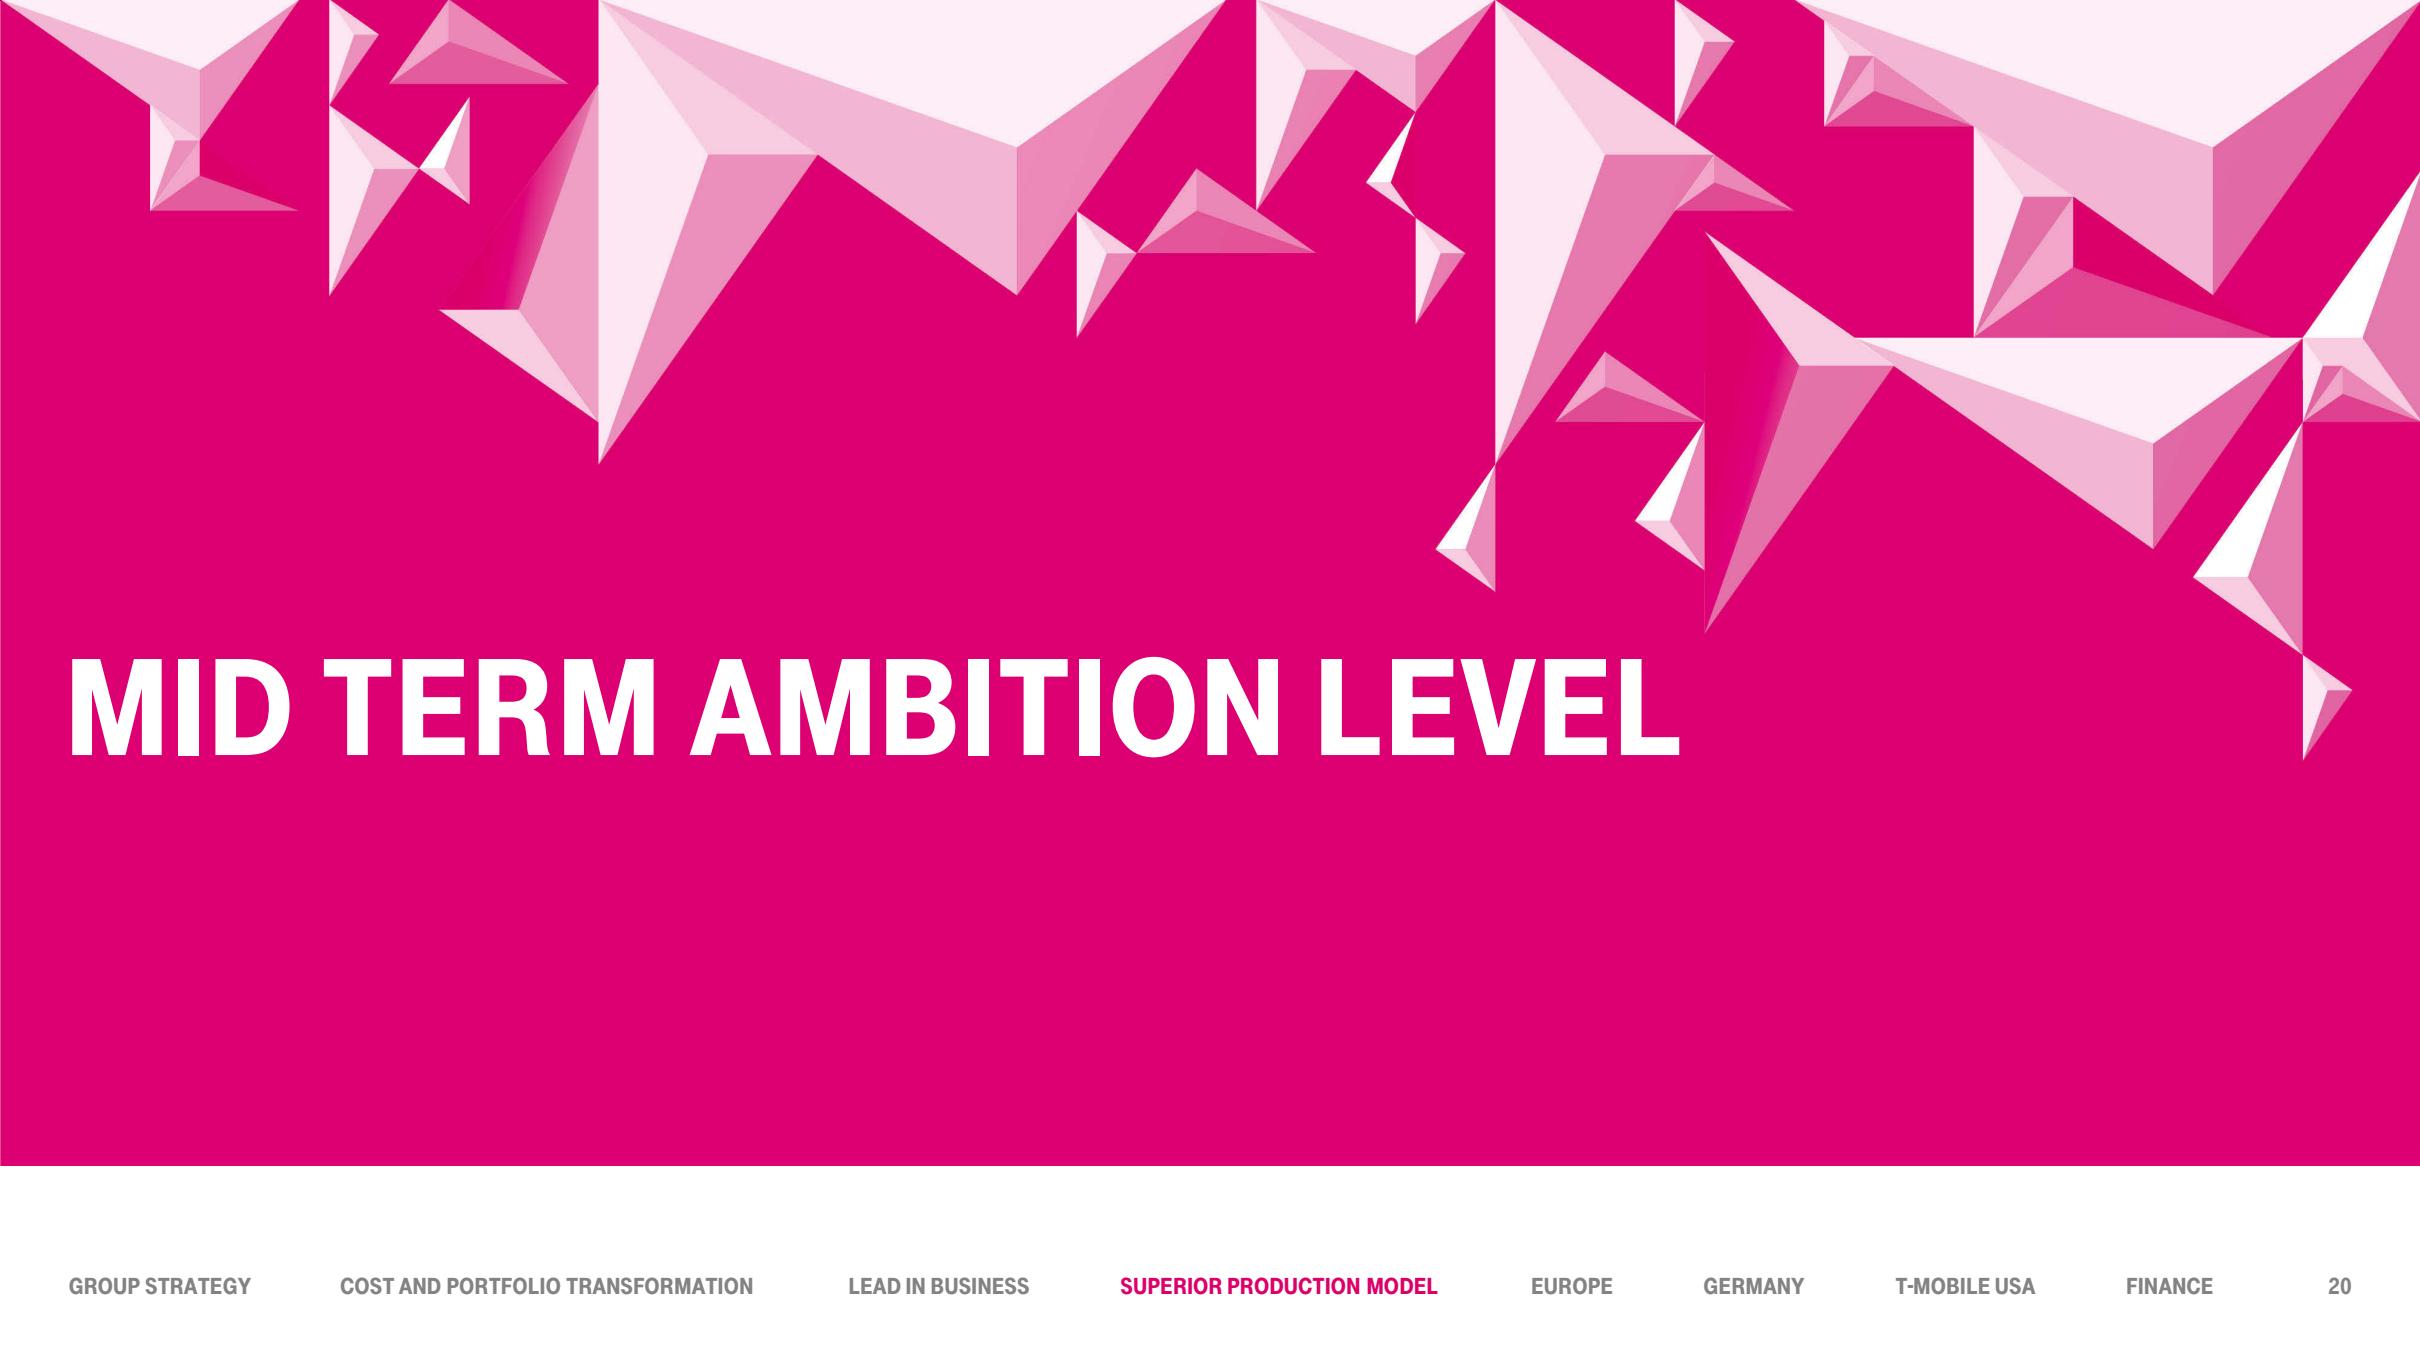

- Segments
  - ≈ €0.7 bn Germany
  - ≈ €0.5 bn Europe
- Functional Areas
  - ≈ €0.4 bn Technology / Platforms
  - ≈ €0.8 bn Service

### COMMERCIAL BENEFITS

- Enlarged fiber and LTE footprint and increased bandwidth for customers
- Faster time to market
- Easy to partner

<sup>1</sup> Excl. special factors. Measure related effects incl. savings. PanNet w/o transport & access. INS Opex in German fixed network also included.

<sup>2</sup> Gross measure-related steady state Opex savings early 2020ies GER/EU vs. 2013, after accomplished IP and process-/e-transformation as well as PanNet (w/o transport & access) before any counter effects (e.g. personnel cost increases).

The background features a large, abstract graphic composed of numerous pink and white 3D polyhedra, creating a sense of depth and movement.
