

Deutsche Telekom Investor Day. On Our Way To A New DT – “Fix – Transform – Innovate”

March 17, 2010
René Obermann

Life is for sharing.

Disclaimer.

This presentation contains forward-looking statements that reflect the current views of Deutsche Telekom management with respect to future events. These forward-looking statements include statements with regard to the expected development of revenue, earnings, profits from operations, depreciation and amortization, cash flows and personnel-related measures. You should consider them with caution. Such statements are subject to risks and uncertainties, most of which are difficult to predict and are generally beyond Deutsche Telekom's control, including those described in the sections "Forward-Looking Statements" and "Risk Factors" of Deutsche Telekom's Annual Report on Form 20-F filed with the U.S. Securities and Exchange Commission. Among the factors that might influence our ability to achieve our objectives are the progress of our workforce reduction initiative and other cost-saving measures, and the impact of other significant strategic, labor or business initiatives, including acquisitions, dispositions and business combinations, and our network upgrade and expansion initiatives. In addition, stronger than expected competition, technological change, legal proceedings and regulatory developments, among other factors, may have a material adverse effect on our costs and revenue development. Further, the economic downturn in our markets, and changes in interest and currency exchange rates, may also have an impact on our business development and the availability of financing on favorable conditions. Changes to our expectations concerning future cash flows may lead to impairment writedowns of assets carried at historical cost, which may materially affect our results at the group and operating segment levels. If these or other risks and uncertainties materialize, or if the assumptions underlying any of these statements prove incorrect, our actual performance may materially differ from the performance expressed or implied by forward-looking statements. We can offer no assurance that our estimates or expectations will be achieved. We do not assume any obligation to update forward-looking statements to take new information or future events into account or otherwise.

In addition to figures prepared in accordance with IFRS, Deutsche Telekom also presents non-GAAP financial performance measures, including, among others, EBITDA, EBITDA margin, adjusted EBITDA, adjusted EBITDA margin, adjusted EBIT, adjusted net income, free cash flow, gross debt and net debt. These non-GAAP measures should be considered in addition to, but not as a substitute for, the information prepared in accordance with IFRS. Non-GAAP financial performance measures are not subject to IFRS or any other generally accepted accounting principles. Other companies may define these terms in different ways. For further information relevant to the interpretation of these terms, please refer to the chapter "Reconciliation of pro forma figures", which is posted on Deutsche Telekom's Investor Relations webpage at www.telekom.com.

Guidance 2010¹ confirmed.

Guidance assumes constant currencies and no further
significant economic deterioration
(Basis 2009 average exchange rates: 1€ = 1.39US\$)

Adj. Group EBITDA

▪ Around €20 billion

Free Cash Flow

▪ Around €6.2 billion

DT Group Strategy

Strategy achievements 2007 - 2009

Our strategy is driven by our core beliefs

DT's strategy is evolving: "Fix – Transform – Innovate"

Strategy was “Focus, Fix & Grow”: Key achievements since 2007.

- **German fixed business:** Clear No.1 in German broadband with 45% net adds share, >1 mn IPTV packages sold
- **German mobile:** service revenue market leadership, return to revenue growth in Q4 2009
- **Service:** CRMT introduced, major service KPI's improved
- **Save4Service:** € 5.9 bn gross savings

Improve
competitiveness
in Germany
and SEE

Grow abroad
with mobile

- **Growth:** 7% revenue and 10% EBITDA growth between 2007 and 2009
- **Successful intra-market consolidation in NL**
- **OTE:** 30% stake acquired in 08/09
- **Joint Venture in UK**

- **Mobile Data revenue growth:**
> € 1bn in rev's per quarter
- **New devices and platforms:**
iPhone 3G, G1, Android etc.
- **New innovative products:**
Media center across all DT screens,
program manager, MyCommunity etc.

Mobilize
the Internet

Build
network-centric
ICT

- **Big deals:** Shell, DPWN, Sparkassen, BMW, Phillips
- **Restructuring:** strong cost cutting and margin improvement
- **Refocusing:** Cognizant partnership, focus on Top 400 clients

DT Group Strategy

Strategy achievements 2007 - 2009

Our strategy is driven by our core beliefs

DT's strategy is evolving: "Fix – Transform – Innovate"

Our strategy is driven by our core beliefs on the future of the telecoms industry.

Network

1

- Infrastructure remains a key value driver in light of continued traffic growth

2

- NGN networks and IT infrastructure will be essential to increase efficiencies and address new strong traffic growth reality

Growth Opportunities

3

- Growth in mobile internet and online consumer services

4

- Consumers will look for seamless customer experience across all screens

5

- Significant growth potential from dynamic cloud computing

6

- Potential for intelligent networks in transforming industries such as energy, healthcare, media distribution and the connected car

Local Strength

7

- Strong local market positions are essential to drive profitability

Core Beliefs 1&2 – Infrastructure:

NGN and NG IT will be critical success factors for the strong traffic growth.

Continued strong traffic growth...

Global internet traffic forecast¹

Global mobile data traffic forecast¹

...requires comprehensive response

- Broadband access in wireless and fixed
 - HSPA+/ LTE
 - VDSL
 - FTTH
- Next Generation Network (NGN)
 - All-IP backbone – Germany 2015
 - Up to 10% homes passed with FTTH² in Germany by YE 2012 within current capex envelope
- Next Generation IT (NG IT)
 - Reduced number of applications
 - Focus on off-the-shelf commercial software
 - Consolidation of data centers

1) Source: Cisco, June 2009
2) Up to 10% of all fixed line households; FTTH rollout will be based on economical efficiency; Regional focus and timing will be adopted dynamically

Core Belief 3 – Growth Segments: Overall addressable market is growing.

Total Market Revenue in DT Footprint (DE, EU, SEE, US)¹

€ bn

Source: Deutsche Telekom estimates, Pyramid Research, PWC 1) EU = UK, Poland, CZ, AT, NL; SEE = HU, HR, MK, SK, GR, BUL, ROM, ALB;

2) IT Services = Systems Integration, Desktop Services, Computing Services; WE incl. Germany only; 3) excl. Search Advertising, 4) excl. Messaging, 5) including IPTV

Future pockets of growth mainly in Mobile Data and Consumer IP Services.

Source: Deutsche Telekom estimates; Pyramid Research; PWC; 1 EU = UK, Poland, CZ, AT, NL;

SEE Wireless = HU, HR, MK, SK, GR, BUL, ROM, ALB; 2) Wireless Data Access excl. content commission; 3) Business customers excluding Rest of world, IT = Systems Integration, Desktop Services, Computing Services; EU footprint for business customers means T-Systems footprint in Western Europe

● Market shrinkage

● Market growth

Core Belief 5 – Dynamic Cloud Computing: Significant growth potential.

Cloud Computing Strategies

Type of service:

Provider (examples):

Private Clouds

- Selected DC
- Dedicated DC

..T..Systems..

Public Clouds

- Shared DC

Google
amazon.com

Cloud Computing Characteristics

Customers are using IT-Services

- when they need it (dynamic),
- how much they need it (scalable),
- and to pay just for how much they need it (pay per use)

Private Cloud Services Market Western Europe (in €bn)¹

Core Belief 6 – Intelligent Networks: Growth opportunities in transforming industries.

Core Beliefs 3 to 6 – Growth Opportunities:

Aim to almost double revenues from growth areas until 2015

DT's Growth Areas	2009 Revenue in € bn.	Ambition Level 2015 Revenue in € bn.	CAGR 09-15
Mobile Internet	4	≈10	+17%
Connected Home Double & triple play, Home Gateway and Communication Suite	5	≈7	+6%
Online Consumer Services	0.8	2 - 3	+16-25%
T-Systems external revenue incl. Cloud Services	6	≈8	+5%
Intelligent Networks in Energy, Health, Media Distribution, Connected Car	0	≈1	-

Core Belief 7 – Local Strength:

Strong local market positions are essential to drive profitability.

- There is a strong correlation between market share and profitability
- Market leaders in key European wireless markets enjoy an average 37% EBITDA margin vs. an average 28% for No. 3/No. 4 players
- We are striving for market leading positions in all our businesses

DT Group Strategy

Strategy achievements 2007 - 2009

Our strategy is driven by our core beliefs

DT's strategy is evolving: “Fix – Transform – Innovate”

Our strategy is evolving.

“Fix – Transform – Innovate” will be implemented through five initiatives.

Improve performance of mobile-centric assets.

Leverage one company in integrated assets.

Build networks and processes for the gigabit society.

¹ 10% of all fixed line households; FTTH rollout will be based on economical efficiency ; Regional focus and timing will be adopted dynamically

Connected life across all screens.

Connected work with unique ICT solutions.

On our way to a new DT – What is going to change.

- Moving from an “access only” business model towards “access plus”
- Exploit pockets of growth in mobile internet, non-access business, ICT opportunities like Cloud Services and intelligent networks
- Moving towards integration of fixed and mobile in network, product & innovation and services where reasonable
- Efficient capital allocation: No major M&A and capex focus on transformation and growth
- Strong commitment to shareholder value generation and shareholder remuneration
- New stakeholder-oriented incentive program incl. EPS/ROCE, based upon share ownership

DT group ambition level 2012.

Group wide TV customers

Group wide mobile customers

Group wide fixed broadband retail customers

Revenues

Save for Service 2010-2012

FCF

ROCE

Shareholder Remuneration 2010-2012

Ambition Level 2012

5.5 – 6 million

> 140 million¹

> 18 million

> €6bn mobile internet revenues

German revenues stabilized

€4.2bn savings, of which €1.8bn net savings in Germany and SEE

Increasing from 2010 level of around €6.2bn

+ >150bps

€3.4bn per annum, €0.70 minimum dividend per share +
share buybacks

¹ Excluding TM UK, which will be deconsolidated from 2010
